About This Game

Description

REPULSE: Galactic Rivals is a local competitive **couchgame**, up to **4 players** and set in a **retrofuturistic** universe.

Players have the ability to attract and repulse cubes spread around the arena at high speed. Discover a dozen of game modes revolving around this repulsion mechanic, while being powered by an addictive and punchy synthwave soundtrack.

Of course, as everyone says, **REPULSE is easy to learn, hard to master.**

REPULSE: Galactic Rivals is probably what's missing in your life at the moment: **having fun with your friends** in an awesome universe with **simple mechanics.**

You don't want to look like you're bad at the game in front of your friends? You can play against **1 to 3 AIs, with 3 different skill levels!**

Never get bored of the view by changing between the **4 rad colorful environments!**

Want to brag in front of your opponents? Then **launch the replay** and show them how they died!

Add your own super cool tracks if you've had enough of the 12 songs **RADIANT.prk & Loic Bourdrel** crafted specifically for **REPULSE**, and watch the audio-reactive arena bounce at your cool beats!

Features

- Choose between 10 various game modes, mixing between 8 cube behaviors.
- Get in your best cyber mood with 12 awesome songs by two amazing synthwave artists!
- Challenge yourself against 3 of your friends...
- ... or against 3 AI with 3 available skill levels!
- Choose to play in a specific mode, a Cocktail or a Random one.
- Extend the round duration by increasing the amount of lives available.
- Add your own music to the audio-reactive Arena!
- You don't have enough gamepads? We have a keyboard + mouse support!
- Choose between 4 different original environments!

Title: REPULSE: Galactic Rivals
Genre: Action, Casual, Indie, Sports
Developer:
IronEqual
Publisher:
IronEqual
Release Date: 13 Nov, 2017

a09c17d780

English

It doesn't work very well, we never did manage to convince it to recognize when a match was over. Ultimately, the gameplay just boils down to precision aiming with a thumbstick.
